14. DESCRIPTION OF AMENDMENT

a. Specifications:

- (1) COVER SHEET: Please make a Pen and Ink change deleting the note “DACW61-00-B-0007” at the lower left corner of the cover sheet and writing the advertising date of “28 JANUARY 2000”.
 - (2) SECTION 01300:
 - a. Please delete pages 01300-1 and 01300-2, and substitute new pages 01300-1 and 01300-2, annotated Amendment No.0001 on page 01300-2, attached hereto.
 - b. Please delete pages 01300-7 and 01300-8, and substitute new pages 01300-7 and 01300-8, annotated Amendment No. 0001, attached hereto.
 - c. On pages 01300-9 and 01300-13 through 01300-15, please make a Pen and Ink change adding the abbreviation “CO” under the Reviewer’s column for each of the specification paragraphs listed.
 - d. On page 01300-12, please make a Pen and Ink change deleting the “COR” abbreviation under the Reviewer’s column and adding the “CO” abbreviation for each of the specification paragraphs listed.
 - (3) SECTION 02880: On page 02880-15 under the section “Work Performed” and the “Item” column, please make a Pen and Ink change correcting the three words written as “Distence” and writing the word “Distance”.
- b. Please indicate receipt of this amendment on Standard Form 1442 (SOLICITATION, OFFER, AND AWARD) Amendment No. 0001. Failure to acknowledge all amendments may be cause for rejection of the bid.

SECTION 01300

SUBMITTAL PROCEDURES

PART 1 GENERAL

1.1 SUMMARY (Not Applicable)

1.2 REFERENCES (Not Applicable)

1.1 SUBMITTAL CLASSIFICATION

Submittals are classified as follows:

1.1.1 Government Approved

Governmental approval is required for extensions of design, critical materials, deviations, equipment whose compatibility with the entire system must be checked, and other items as designated by the Contracting Officer. Within the terms of the Contract Clause entitled: SPECIFICATIONS AND DRAWINGS FOR CONSTRUCTION, they are considered to be "shop drawings."

1.1.2 Information Only

All submittals not requiring Government approval will be for information only. They are not considered to be "shop drawings" within the terms of the Contract Clause referred to above.

1.2 APPROVED SUBMITTALS

The approval of submittals by the Contracting Officer shall not be construed as a complete check, but will indicate only that the general method of construction, materials, detailing and other information are satisfactory. Approval will not relieve the Contractor of the responsibility for any error which may exist, as the Contractor under the CQC requirements of this contract, is responsible for the dimensions and design of adequate connections, details and the satisfactory construction of all work. After submittals have been approved by the Contracting Officer, no resubmittal for the purpose of substituting materials or equipment will be given consideration unless accompanied by an explanation of why a substitution is necessary.

1.3 DISAPPROVED SUBMITTALS

The Contractor shall make all corrections required by the Contracting Officer and promptly furnish a corrected submittal in the form and number of copies as specified for the initial submittal. If the Contractor considers any correction indicated on the submittals to constitute a change to the contract, notice in accordance with the Contract Clause entitled: CHANGES shall be given promptly to the Contracting Officer.

1.4 WITHHOLDING OF PAYMENT

Payment for materials incorporated in the work will not be made if required approvals have not been obtained.

PART 2 PRODUCTS (Not Applicable)

PART 3 EXECUTION

3.1 GENERAL

The Contractor shall submit all items listed on the Submittal Register (ENG Form 4288) or specified in the other sections of these specifications. The Contracting Officer may request submittals in addition to those listed when deemed necessary to adequately describe the work covered in the respective sections. Units of weights and measures used on all submittals shall be the same as those used in the contract drawings. Submittals shall be made in the respective number of copies and to the respective addresses set forth below. Each submittal shall be complete and in sufficient detail to allow ready determination of compliance with the contract requirements. Prior to submittal, all items shall be checked and approved by the Contractor and each respective transmittal form (ENG Form 4025) shall be signed and dated certifying that the accompanying submittal complies with the contract requirements. Proposed deviations from the contract requirements shall be clearly identified. Submittals shall include items such as: Contractor's, manufacturer's, or fabricator's drawings; descriptive literature including (but not limited to) catalog cuts, diagrams, operating charts or curves; test reports; test cylinders; samples; O&M manuals (including parts list); certifications; warranties; and other such required submittals. Submittals requiring Government approval shall be scheduled and made prior to the acquisition of the material or equipment covered thereby.

3.2 SUBMITTAL REGISTER (ENG FORM 4288)

Attached to this section is a Submittal Register (ENG Form 4288) listing each item of equipment and material for which submittals are required by the specifications. Columns "d" thru "r" have been completed by the Government. The Contractor shall complete columns **"a", "b" and "c" and "s" through "u"**. The Contractor shall review, complete and submit, in triplicate, the completed register listing all submittals and dates, to the Contracting Officer at the pre-dredging coordination meeting. In addition to those items listed on ENG Form 4288, the Contractor shall furnish submittals for any deviations from the plans and specifications at the pre-dredging coordination meeting. The scheduled need date shall be recorded on the register for each item for control purposes. The approved submittal register will become the scheduling document and will be used to control submittals throughout the life of the contract. Scheduling shall be coordinated with the approved construction progress chart. The Contractor's CQC system manager shall review the listing at least every 30 days and take appropriate action to maintain an effective system. Copies of updated or corrected listings shall be submitted to the Contracting Officer at least every 60 days, in triplicate. Payment will not be made for any material or equipment which does not comply with contract requirements.

3.3 SCHEDULING

Submittals covering component items forming a system or items that are interrelated shall be scheduled to be coordinated and submitted concurrently. Certifications to be submitted with the pertinent drawings shall be so scheduled. In completing the register, a minimum of 30 calendar days, exclusive of mailing time, shall be allowed for review and approval, or possible resubmittal for all listed submittals. No delays, damages or time extensions will be allowed for time lost in late submittals.
